To Whom It May Concern

**Office Fitout – Aboriginal and Torres Strait Islander Healing Foundation  
55 Wentworth Avenue, Kingston**

Rork Interiors was appointed as the Designer and Head Contractor for the above mentioned project.

I would like to commend Rork Interiors on the quality of the work undertaken for our new office accommodation and more importantly, on the management of the project by Brandon Sheppard (Project Manager) and Anthony Kennedy (Site Manager). Their performance was the driving factor in the success of this project.

It has been my pleasure to work with Brandon as I have found him to be courteous, honest, and diligent. He has shown excellent knowledge and a thorough understanding of contracts, building codes, scheduling, and familiarity with materials, methods and managing the process of construction.

Rork's Site Manager, Anthony, always kept us updated on the day to day running of the project. He always maintained the site in a professional manner and ensured the site was safe at all times.

I would also like to commend Rork Interiors for the efficient contract administration shown on this project, in particular prompt documentation of variation requests and meeting our particular needs.

Rork Interiors was able to put our vision into reality, on budget and on time, and I have no hesitation in recommending Rork Interiors for a Head Contract role for construction works.

Thank you for a well handled job.

Kind regards

Moya Kimball  
Office Manager
