To Whom It May Concern

Rork Interiors were awarded the head contract to deliver a new head Office fitout for Defence Force Recruiting and Manpower Services at 10 Richmond Avenue, Fairbairn ACT.

I am pleased to recommend Rork Interiors based on the quality of the work and on the management of the project by Brandon Sheppard (Project Manager) as well as the site team consisting of Anthony Kennedy and Adam King. Their ability to manage the project as well as coordinate with Canberra Airport Group and a myriad of other stakeholder groups was a keystone of the success of this project.

The project itself was a challenge due to the incredibly short timeline that was necessary to be met in order to meet our Clients lease obligations as well as the complicated IT and security requirements that go hand in hand with Defence projects. Rork Interiors not only managed to complete the works on time but also managed to absorb a large number of client requested changes and additions whilst still maintaining programme and a clean and orderly site.

As a Sydney based Project Manager undertaking only fortnightly site visits, I was constantly informed of the project progress and any issues that arose. Rork were able to provide me with peace of mind that the works were progressing well.

As a Project Manager with over 20 years of industry experience, I have worked with a range of contractors and have no hesitation to recommend Rork to potential clients as one of the better ones that I have dealt with.

Kind regards
